Styles: Open Louver Style: louver angle 45 degrees for 1-1/2" louvers, 30 degrees for 1-7/8" louvers.
Closed Louver Style: louver angle 17 degrees.

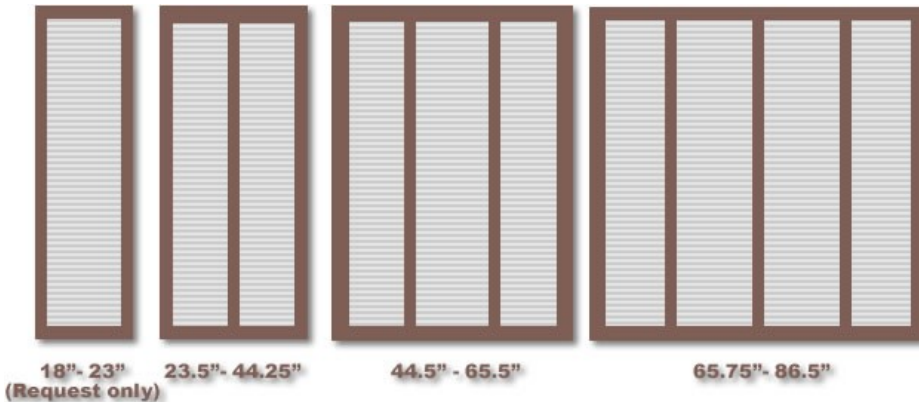

Sizes: Custom Sized for your window to the 1/4 inch.
Max Width: 120"
Max Length: 108"

Material: Select Grade lumber: African Mahogany, California Redwood, Western Red Cedar, and Southern Yellow Pine.

Finish: Unfinished: Sanded & ready to paint
Primed: PPG® Sealgrip Acrylic Universal Primer
Painted: PPG® BREAK-THROUGH!® 250 Interior/Exterior Water-Borne Acrylic, Satin
Stain-grade: Hand selected best pieces of wood in lot. Stain-grade putty used if needed.

Shipping: Free for shutter sizes less than 76".

Custom: Email us with your special requirements.

Determine the width of your shutter. This should be the width of your window plus allowance for arms to prop the shutters open. Measure the top, middle, and bottom widths. Use the largest width as your shutter width. If it is mounted within a recessed opening, it should not be wider than what will fit within the opening.

For widths larger than 86.75" a mullion will be added every 21". Contact us if you need different mullion requirements. We offer some work-arounds.
