RUSTIC AND TUDOR STYLE · HANDCRAFTED IN THE USA

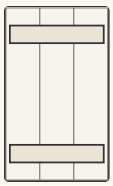
Board & Batten Shutters

Vertical boards and horizontal battens, the oldest shutter there is, built to your window in five woods or composite.

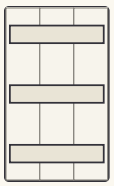
- **Open or closed boards**, with 2 or 3 battens or a Z-bar
- **Five woods:** Southern Yellow Pine, Incense Cedar, Rough Sawn Cedar, Red Grandis or African Mahogany; closed style also in Extira composite
- **Primed free before assembly**, so the faces behind the battens and every end grain are sealed
- 1/4" beveled edges on every board and batten; battens set 7" from top and bottom (5" under 35")
- Custom sized to the **1/8"**. Order online up to 24" wide x 96" long; to 48" wide by quote
- **Free shipping** on shutters under 76" long
- Ships in approximately 6–8 weeks, backed by our 5-year material and workmanship warranty

Four Styles

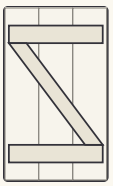
Boards can be closed (tight together) or open (a small gap between them). Open-board shutters 55" or taller need a third batten or a Z-bar to stay flat; the order form will tell you.



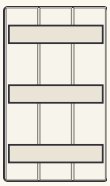
2 battens
wood under 55", any composite



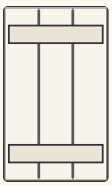
3 battens
any material, any size



Z-bar
any material, any size



Open weave
wood only; 1/4" gap standard



Composite
closed boards, V-grooves

Woods

Southern Yellow Pine — dense, strong and the best value in the line. 1" boards and battens.

Incense Cedar — naturally resistant to rot and insects, light in weight, stable in humid air.

Rough Sawn Cedar — Common Grade Western Red Cedar with a sawn, fence-board face. The rustic choice, 3/4" thick.

Red Grandis — a clear, close-grained eucalyptus hardwood from managed plantations. Excellent for stain.

African Mahogany — the premium choice: rich color, exceptional stability, a grain worth showing off.

Finishes

Primed — free on every board and batten shutter: General Finishes Enduro White Undercoat, grey, applied before assembly.

Unfinished — ready for you to prime and paint yourself.

Painted — General Finishes Exterior 450 water-based topcoat, satin. In-stock colors or a custom color match.

Stain-Grade — hand-selected best pieces of wood in the lot. Staining services are not offered.

Maximum size	24" x 96" online; 48" x 108" by quote	Same	24" x 96" online; 55" wide by quote

Every shutter is custom sized to the 1/8". Battens stop 3/8" short of the sides. Open-weave gap is 1/4" unless 1/2" or 3/4" is specified. Measuring guide: www.sunbeltshutters.com/how-to-measure-shutters.asp

Built-to-Order Options

Arched top — tell us the spring line; battens sit below it.

Custom cut-outs — email your preferred shape.

Batten size and placement — taller battens, or battens where you want them.

Z-bar — a diagonal brace across the battens, for looks or for large shutters.

Shutter thickness — heavier stock for big openings.

Non-beveled edges — square edges instead of the standard 1/4" bevel.

Hardware, Shipping and Warranty

Hardware — strap hinges, pintles, holdbacks and slide bolts from our hardware collection are made to pair with these shutters.

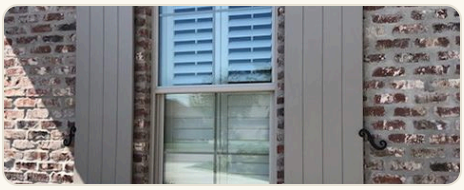
Shipping — free on shutters under 76" long. Longer shutters ship by freight at a quoted rate.

Lead time — approximately 6–8 weeks from order to shipment; each pair is built to order.

Warranty — five years against defects in material and workmanship. Details and the claim form are at www.sunbeltshutters.com/warranty.asp.

On Real Homes

Blue on cedar shingles.



Closed boards, three battens.

Stain-grade, open weave.
